クロツラヘラサギ(黒面篋鷺)
トキ科 L=77cm

Two white egrets are standing in dark, rippling water. The egret in the foreground is facing right, while the one in the background is also facing right but slightly further away. Both birds have long necks and long, pointed beaks. The water is dark and reflects the light, creating a textured surface.

ダイサギ(大鷺) サギ科 L=90cm

A photograph of three white egrets in a dark pond. One egret is in flight on the left, with its wings spread and legs trailing. Two other egrets are standing in the water on the right. In the background, a wall with a repeating diamond-shaped lattice pattern is visible. The water is dark and reflects the birds and the wall.
