コブハクチョウ(瘤白鳥)
ガンカモ科 L=152cm

Two white swans are swimming in dark, rippling water. The swan in the foreground is on the right, facing left, with its long neck curved downwards. The second swan is behind it and to the left, also facing left. Both swans have white feathers and dark markings around their eyes and beaks. The water is dark and textured with small waves.

コブハクチョウ(瘤白鳥)
ガンカモ科 L=152cm

A photograph of three white swans swimming in dark, rippling water. The swans are positioned in a line, with one on the left and two on the right. They have long, curved necks and bright orange beaks with black markings. The water is dark and textured with small waves.
