A photograph of three starlings in a field of tall grass. The birds are small, with dark bodies and white spots on their wings and backs. They are standing on the ground, surrounded by green and yellow grass. The background is a dense field of similar grass.

ホシムクドリ(星椋鳥)
ムクドリ科 L=22cm

A group of seven starlings is captured in flight against a background of a metal fence. The birds are in various stages of flight, with wings spread, showing their characteristic dark, speckled plumage. The fence consists of vertical bars and horizontal rails, creating a grid-like pattern. The lighting is bright, suggesting a sunny day.

ムクドリ科 L=22cm

A small, brown and white speckled bird, likely a starling, is perched on a metal railing. The railing consists of several horizontal and diagonal bars. The bird is facing left and has its feet gripping one of the diagonal bars. The background is a blurred, light-colored surface, possibly a wall or a large window. The overall scene is captured in a close-up shot.
