福岡市ヨットハーバー イルミネーション2019

17:59

A nighttime photograph of the Fukuoka Yacht Harbor. In the background, a large, multi-story building is brightly lit with a warm yellow light. To the right of the building, there are several tall, triangular structures illuminated with vibrant, multi-colored lights (red, blue, purple, and white). A tall, thin tower with a glass-enclosed top is visible behind the main building. The sky is dark with a hint of sunset or sunrise colors. In the foreground, there is a paved area with some green bollards and a white railing. The overall scene is a mix of modern architecture and festive lighting.
